

Submission on the draft Waste Management & Minimisation Plan

Your contact details	
First name	Anna
Last name	Williams
Organisation you represent	
Hearing	
Do you want to speak to Council in support of your submission?	No
Question 1: Food scraps and green waste	
Do you support our plan to introduce a food scraps kerbside collection service?	Yes
Are there any comments you'd like to make?	
What should be included in the kerbside collection service?	Food scraps and green waste
Please tell us your thoughts	
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	Yes
Are there any comments you'd like to make?	
Question 3: Waste minimisation target	
Do you support our plan to include these performance standards as our waste minimisation target?	Yes
Are there any comments you'd like to make?	
What target should we set instead?	
Question 4: Other comments	

Submission on the draft Waste Management & Minimisation Plan

Your contact details	
First name	Richard
Last name	Andrews
Organisation you represent	
Hearing	
Do you want to speak to Council in support of your submission?	No
Question 1: Food scraps and green waste	
Do you support our plan to introduce a food scraps kerbside collection service?	No
Are there any comments you'd like to make?	While food scraps and green waste are ending up at the landfill they will decompose. Majority of my general waste is soft plastics that can't be avoided. Make a push through council and govt for products to be in easily recycled materials
What should be included in the kerbside collection service?	Neither
Please tell us your thoughts	People are lazy. If they can't be bothered to compost at home they won't be bothered to do kerbside.
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	I don't know / not sure
Are there any comments you'd like to make?	Would love to see that happen. These usually end up with large amounts of money spent for little or not return
Question 3: Waste minimisation target	
Do you support our plan to include these performance standards as our waste minimisation target?	I don't know / not sure
Are there any comments you'd like to make?	
What target should we set instead?	
Question 4: Other comments

Your contact details	
First name	Rebecca
Last name	Hatcher
Organisation you represent	
Hearing	
Do you want to speak to Council in support of your submission?	No
Question 1: Food scraps and green waste	
Do you support our plan to introduce a food scraps kerbside collection service?	Yes
Are there any comments you'd like to make?	
What should be included in the kerbside collection service?	Food scraps and green waste
Please tell us your thoughts	We accumulate a lot of greenwaste on our property and struggle to get rid of it. We don't have a towball or trailer so figuring out what to do with it is always a struggle. We often top off our bin with greenwaste.
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	Yes
Are there any comments you'd like to make?	
Question 3: Waste minimisation target	
Do you support our plan to include these performance standards as our waste minimisation target?	Yes
Are there any comments you'd like to make?

Question 4: Other comments	

Submission on the draft Waste Management & Minimisation Plan

Your contact details	
First name	Graeme
Last name	Fenemor
Organisation you represent	Bull Breeder
Hearing	
Do you want to speak to Council in support of your submission?	No
Question 1: Food scraps and green waste	
Do you support our plan to introduce a food scraps kerbside collection service?	I don't know / not sure
Are there any comments you'd like to make?	A service that collects all rubbish and is sorted, ie not pre sorted by ratepayers, would mean the right stuff ends up in the right places...a single bin with everything and employee/operate to sort centrally
What should be included in the kerbside collection service?	Food scraps and green waste
Please tell us your thoughts	Anything that can be recycled should be, but this is best determined centrally and done centrally.
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	Yes
Are there any comments you'd like to make?	Having the services provided by third parties, and council acting as a regulator gives an oversight/overview role. This benefits in getting the right mix of collection services for the community and can include incentives for providing centralised sorting to ensure recycling benefits can be leveraged....and at no impact on the ratepayer/residents
Question 3: Waste minimisation target	
Do you support our plan to include these performance standards as our waste minimisation target?	Yes
Are there any comments you'd like to make?	...but make it the collectors responsibility to sort. Having a single collection and sorting by the collector will help aim towards these targets. Having it fall upon the residents/ratepayers leaves sorting more to the interpretation and in some cases abuse of individuals, and doesn't promote the right outcomes wanted for society.
What target should we set instead?	
Question 4: Other comments	

	<p>A centralised sorting system via a or multiple contractors would achieve better outcomes than relying on multiple individuals to hopefully do the right thing. Make it the easiest possible thing by having it contracted out to private companies...with regulations...rather than trying to provide it. Commercial competition with regulatory oversight and targets will make for better recycling outcomes.</p>

Submission on the draft Waste Management & Minimisation Plan

Your contact details	
First name	George
Last name	Heagney
Organisation you represent	
Hearing	
Do you want to speak to Council in support of your submission?	No
Question 1: Food scraps and green waste	
Do you support our plan to introduce a food scraps kerbside collection service?	Yes
Are there any comments you'd like to make?	This would be a good option to get this out of waste going to landfill and the resource recovery centre.
What should be included in the kerbside collection service?	Food scraps and green waste
Please tell us your thoughts	This would be more convenient for getting rid of food scraps and green waste from mowing the lawn etc. I imagine it would come at a cost but if it was reasonable cost I think people would be happy to do it. We have our own compost but still would use a green waste bin. The frequency of collection would be important too. Some people would fill theirs regularly, particularly with mowing the lawns, but others not as often.
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	Yes
Are there any comments you'd like to make?	I don't have a problem with the council investigating it, but if it were to be contracted out to a third party would ratepayers lose out on anything. And the council maintaining the ability to be the regulator is important too. Go for it as long as we don't get left with an inferior service.
Question 3: Waste minimisation target	
Do you support our plan to include these performance standards as our waste minimisation target?	Yes
Are there any comments you'd like to make?	Minimising waste is a good idea
What target should we set instead?	
Question 4: Other comments	
	Would every house having council wheelie bins for rubbish, rather than the existing bags, be an option. If it were a large cost then it isn't worth it.

Hearing	
Do you want to speak to Council in support of your submission?	No
Question 1: Food scraps and green waste	
Do you support our plan to introduce a food scraps kerbside collection service?	Yes
Are there any comments you'd like to make?	I'd really support if it has green waste more. As I food compost already but end up with too much green waste although re use some on my garden. Why not share it to council who then can sell it back & be reused
What should be included in the kerbside collection service?	Food scraps and green waste
Please tell us your thoughts	Being able to share some of my green water that's too much for me & others gardens benefit would be amazing
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	Yes
Are there any comments you'd like to make?	
Question 3: Waste minimisation target	
Do you support our plan to include these performance standards as our waste minimisation target?	Yes
Are there any comments you'd like to make?	
What target should we set instead?	
Question 4: Other comments	
	Love the education side. Being in early childhood we are very active in teaching our children this & love you guys coming in to teach/share w the kids too in partnership

Question 1: Food scraps and green waste	
Do you support our plan to introduce a food scraps kerbside collection service?	Yes
Are there any comments you'd like to make?	
What should be included in the kerbside collection service?	Food scraps and green waste
Please tell us your thoughts	This makes it more accessible for elderly, and residents who don't have the means to transport green waste to the resource center and is a definite cheaper option then having a lawn mowing service.
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	Yes
Are there any comments you'd like to make?	
Question 3: Waste minimisation target	
Do you support our plan to include these performance standards as our waste minimisation target?	Yes
Are there any comments you'd like to make?	
What target should we set instead?	
Question 4: Other comments

Question 1: Food scraps and green waste	
Do you support our plan to introduce a food scraps kerbside collection service?	Yes
Are there any comments you'd like to make?	
What should be included in the kerbside collection service?	Food scraps and green waste
Please tell us your thoughts	Such a fantastic idea as not everyone has the option to have a compost bin especially when renting. This will save so much food waste and will have a great impact on the environment. 100% support this initiative
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	Yes
Are there any comments you'd like to make?	
Question 3: Waste minimisation target	
Do you support our plan to include these performance standards as our waste minimisation target?	Yes
Are there any comments you'd like to make?	
What target should we set instead?	
Question 4: Other comments

Do you want to speak to Council in support of your submission?	
	No
Question 1: Food scraps and green waste	
Do you support our plan to introduce a food scraps kerbside collection service?	Yes
Are there any comments you'd like to make?	
What should be included in the kerbside collection service?	Food scraps and green waste
Please tell us your thoughts	
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	Yes
Are there any comments you'd like to make?	
Question 3: Waste minimisation target	
Do you support our plan to include these performance standards as our waste minimisation target?	Yes
Are there any comments you'd like to make?	I think this is a great idea. We compost and pay for green waste disposal. But I see so many of Neighbours just throwing in the normal bin which seems so wasteful
What target should we set instead?	
Question 4: Other comments
