Do you want to speak to Council in support of your submission?	No
Question 1: Food scraps and green waste	
Do you support our plan to introduce a food scraps kerbside collection service?	Yes
Are there any comments you'd like to make?	We should be doing this already like n Mmm any other NZ towns eg New Plymouth I.
What should be included in the kerbside collection service?	Food scraps and green waste
Please tell us your thoughts	Green waste collection may stop some of the dumping on side of roads.
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	Yes
Are there any comments you'd like to make?	
Question 3: Waste minimisation target	
Do you support our plan to include these performance standards as our waste minimisation target?	Yes
Are there any comments you'd like to make?	
What target should we set instead?	
Question 4: Other comments	
	Somewhere that polystyrene can be recycled.

### Submission on the draft Waste Management & Minimisation Plan

Your contact details	
First name	Georgina
Last name	Wharepapa
Organisation you represent	
Hearing	
Do you want to speak to Council in support of your submission?	No
Question 1: Food scraps and green waste	
Do you support our plan to introduce a food scraps kerbside collection service?	Yes
Are there any comments you'd like to make?	The kerbside collection of food scraps and/or green waste are good environmental initiatives. However, my concern is that household waste could potentially be mixed in with green waste and thereby cause contamination. The addition of a green waste collection service would incur further costs to ratepayers.
What should be included in the kerbside collection service?	Food scraps only
Please tell us your thoughts	We compost some of our household food scraps & green waste, but we also utilise the nearby Awapuni Resource Recovery Park to dispose of excess green waste.
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	Yes
Are there any comments you'd like to make?	Our household of 3 adults have always used the kerbside waste collection and we've minimised the amount of waste we produce to only requiring once per fortnight to three weekly pickups. PNCC is to be commended for being the only remaining council to directly provide this user-pay service. I'm supportive of the council licensing other waste collectors.
Question 3: Waste minimisation target	
Do you support our plan to include these performance standards as our waste minimisation target?	Yes
Are there any comments you'd like to make?	
What target should we set instead?	
Question 4: Other comments	
	Well done Palmerston North City Council. Ngā mihi.

### Submission on the draft Waste Management & Minimisation Plan

Your contact details	
First name	Greer
Last name	Murrie
Organisation you represent	
Hearing	
Do you want to speak to Council in support of your submission?	No
Question 1: Food scraps and green waste	
Do you support our plan to introduce a food scraps kerbside collection service?	No
Are there any comments you'd like to make?	
What should be included in the kerbside collection service?	Neither
Please tell us your thoughts	Keep it simple. Leave the 'extras' to private firms.  Council needs to simplify its services to keep costs down.
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	Yes
Are there any comments you'd like to make?	These must be able to be opt in/out for each Ratepayer with FULL cost attribution collected by user pays- otherwise leave it to private firms. Ratepayers should not be subsidising anything
Question 3: Waste minimisation target	
Do you support our plan to include these performance standards as our waste minimisation target?	No
Are there any comments you'd like to make?	Responsibilities need to be put back on source: manufacturers & suppliers to reduce those targets before they reach consumers
What target should we set instead?	As above.
Question 4: Other comments	

### Submission on the draft Waste Management & Minimisation Plan

Your contact details	
First name	Angela
Last name	Nix
Organisation you represent	
Hearing	
Do you want to speak to Council in support of your submission?	No
Question 1: Food scraps and green waste	
Do you support our plan to introduce a food scraps kerbside collection service?	Yes
Are there any comments you'd like to make?	
What should be included in the kerbside collection service?	Food scraps and green waste
Please tell us your thoughts	
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	Yes
Are there any comments you'd like to make?	Add soft plastic to send for fence posts etc
Question 3: Waste minimisation target	
Do you support our plan to include these performance standards as our waste minimisation target?	I don't know / not sure
Are there any comments you'd like to make?	
What target should we set instead?	
Question 4: Other comments	

### Submission on the draft Waste Management & Minimisation Plan

Your contact details	
First name	Wendy
Last name	O Connell
Organisation you represent	
Hearing	
Do you want to speak to Council in support of your submission?	No
Question 1: Food scraps and green waste	
Do you support our plan to introduce a food scraps kerbside collection service?	No
Are there any comments you'd like to make?	
What should be included in the kerbside collection service?	Neither
Please tell us your thoughts	
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	Yes
Are there any comments you'd like to make?	The people who compost and are responsible in disposing of their green waste and food scrapes are charged for a service they don't need. Private waste collection gives people the choice Even if there was a service these sort of people wouldn't use it.
Question 3: Waste minimisation target	
Do you support our plan to include these performance standards as our waste minimisation target?	I don't know / not sure
Are there any comments you'd like to make?	
What target should we set instead?	
Question 4: Other comments

Do you support our plan to introduce a food scraps kerbside collection service?	Yes
Are there any comments you'd like to make?	
What should be included in the kerbside collection service?	Food scraps and green waste
Please tell us your thoughts	
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	Yes
Are there any comments you'd like to make?	
Question 3: Waste minimisation target	
Do you support our plan to include these performance standards as our waste minimisation target?	I don't know / not sure
Are there any comments you'd like to make?	
What target should we set instead?	
Question 4: Other comments	

### Submission on the draft Waste Management & Minimisation Plan

Your contact details	
First name	Claire
Last name	Moore
Organisation you represent	
Hearing	
Do you want to speak to Council in support of your submission?	
	No
Question 1: Food scraps and green waste	
Do you support our plan to introduce a food scraps kerbside collection service?	Yes
Are there any comments you'd like to make?	I received a compost bin from you, which we love and use on a daily basis so essentially don't really need pick up.
What should be included in the kerbside collection service?	Food scraps and green waste
Please tell us your thoughts	Definitely would like something for green waste.
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	Yes
Are there any comments you'd like to make?	
Question 3: Waste minimisation target	
Do you support our plan to include these performance standards as our waste minimisation target?	Yes
Are there any comments you'd like to make?	
What target should we set instead?	
Question 4: Other comments	
	I'm all for reducing as much waste as possible!

### Submission on the draft Waste Management & Minimisation Plan

Your contact details

Last name	Dunstan
Organisation you represent	
Hearing	
Do you want to speak to Council in support of your submission?	No
Question 1: Food scraps and green waste	
Do you support our plan to introduce a food scraps kerbside collection service?	Yes
Are there any comments you'd like to make?	Rates increase to support this mustn't be more than I already pay for greenwaste collection
What should be included in the kerbside collection service?	Food scraps and green waste
Please tell us your thoughts	
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	I don't know / not sure
Are there any comments you'd like to make?	I think everything is fine
Question 3: Waste minimisation target	
Do you support our plan to include these performance standards as our waste minimisation target?	I don't know / not sure
Are there any comments you'd like to make?	I don't think nz's sustainability efforts will have any meaningful effect on climate change. I just want my rubbish to be taken away
What target should we set instead?	
Question 4: Other comments	
	Recommend a yearly "big stuff" collection to reduce the amount of broken furniture etc that gets dumped in parks and roadsides

### Submission on the draft Waste Management & Minimisation Plan

Are there any comments you'd like to make?	
What should be included in the kerbside collection service?	Food scraps and green waste
Please tell us your thoughts	
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	Yes
Are there any comments you'd like to make?	
Question 3: Waste minimisation target	
Do you support our plan to include these performance standards as our waste minimisation target?	Yes
Are there any comments you'd like to make?	
What target should we set instead?	
Question 4: Other comments	
	<p>I lived in Gerringong, NSW, for four years. During that time the local council did several great things with respect to waste minimisation</p> <ol style="list-style-type: none"> <li>1. Landfill rubbish was collected fortnightly</li> <li>2. Recycling was collected weekly</li> <li>3. Green waste was collected weekly</li> </ol>

101-2

	<p>The above was done to minimise landfill waste and to positively encourage households to recycle.</p> <p>The council MADE MONEY and saved on costs with respect to green waste, including food waste, by having their own compost facilities. With the compost and soil they made at the facility was used in all council gardens, etc, and sold the excess back to the community at affordable prices. Thus, greenwaste collection paid for itself and was not a burden on ratepayers. It also meant that fly tipping and the like was vastly reduced, or non existent, apart from summer when holiday makers did not follow the rules and dumped perfectly good recyclable waste and greenwaste.</p> <p>One other thing they proactively did was provide an annual non-organic curbside collection so that people were less likely to fly tip, etc.</p> <p>Lots of benefits for the council and the community. It just takes a bit of education and positive reinforcement from council for community buy-in.</p>

### Submission on the draft Waste Management & Minimisation Plan

Your contact details	
First name	David
Last name	Basire
Organisation you represent	
Hearing	
Do you want to speak to Council in support of your submission?	No
Question 1: Food scraps and green waste	
Do you support our plan to introduce a food scraps kerbside collection service?	Yes
Are there any comments you'd like to make?	Please also include green waste, and set up a composting centre. Kiama council, NSW did this very successfully, used lots of the resulting fertiliser on their gardens, and had lots to spare, which they sold to the public to help cover costs.
What should be included in the kerbside collection service?	Food scraps and green waste
Please tell us your thoughts	
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	Yes
Are there any comments you'd like to make?	Not worried about who collects, so long as it's collected, and we don't end up paying more.
Question 3: Waste minimisation target	
Do you support our plan to include these performance standards as our waste minimisation target?	Yes
Are there any comments you'd like to make?	30% is a pretty low target, aim higher please. We don't want anything going to a landfill that can be used elsewhere.
What target should we set instead?	
Question 4: Other comments	
Nothing more

Hearing	
Do you want to speak to Council in support of your submission?	No
Question 1: Food scraps and green waste	
Do you support our plan to introduce a food scraps kerbside collection service?	Yes
Are there any comments you'd like to make?	
What should be included in the kerbside collection service?	Food scraps and green waste
Please tell us your thoughts	
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	Yes
Are there any comments you'd like to make?	If Council were to provide a Wheelie Bin rather than Plastic Bags. I would happily start to use this service again. You could even "contract out" to the private companies that are currently providing this service, which would then give you back control.
Question 3: Waste minimisation target	
Do you support our plan to include these performance standards as our waste minimisation target?	Yes
Are there any comments you'd like to make?	
What target should we set instead?	
Question 4: Other comments	
	Please get rid of the single use plastic bags for Rubbish. We have got rid of them for most other things now. You could even have wheelie bins made from NZ recycled plastic. Imagine what that could remove from landfill.

Question 1: Food scraps and green waste	
Do you support our plan to introduce a food scraps kerbside collection service?	Yes
Are there any comments you'd like to make?	It's a no brainer. It will mean less waste going to the tip, it will promote thoughtfulness to be less wasteful.
What should be included in the kerbside collection service?	Food scraps and green waste
Please tell us your thoughts	We had these service in Australia and it meant less single vehicle trips to the tip/recycling center so better for the environment, and people tended to look after their properties better and clear debris that would otherwise end up in the waste water because they new the collection came every two weeks. Great system, particularly for those with larger properties.
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	Yes
Are there any comments you'd like to make?	I think charges should be based on property sizes though. The larger the property the more green waste it will produce, and I also think it should allow for people to opt out, particularly if they live in apartments, smaller households.
Question 3: Waste minimisation target	
Do you support our plan to include these performance standards as our waste minimisation target?	Yes
Are there any comments you'd like to make?	
What target should we set instead?	
Question 4: Other comments

Question 1: Food scraps and green waste	
Do you support our plan to introduce a food scraps kerbside collection service?	No
Are there any comments you'd like to make?	We live semi rural and have a pig for food scraps so don't want to pay extra in rates for a service I wouldn't use
What should be included in the kerbside collection service?	Neither
Please tell us your thoughts	Again can dispose of our green waste on our own property and don't want to pay for services we wouldn't use
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	I don't know / not sure
Are there any comments you'd like to make?	
Question 3: Waste minimisation target	
Do you support our plan to include these performance standards as our waste minimisation target?	I don't know / not sure

Your contact details	
First name	Anna
Last name	Regtien
Organisation you represent	
Hearing	
Do you want to speak to Council in support of your submission?	No
Question 1: Food scraps and green waste	
Do you support our plan to introduce a food scraps kerbside collection service?	Yes
Are there any comments you'd like to make?	
What should be included in the kerbside collection service?	Food scraps and green waste
Please tell us your thoughts	If both can be processed at the same facility then I think this is a great idea. Our family already have a worm farm and a compost bin but not all properties are able to do that and it does encourage rats and mice which we have to be aware of. Collection at kerbside would reduce it going into landfill.
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	Yes
Are there any comments you'd like to make?	I use the council kerbside waste collection as we only put out a rubbish bag when it is full. Usually once every 3 weeks (household of 4). Having a wheelie bin would only encourage people to "fill it up" if there is space in it each week and there would be no incentive to reduce the waste we produce. This needs to be an important consideration in your review.
Question 3: Waste minimisation target	
Do you support our plan to include these performance standards as our waste minimisation target?	Yes
Are there any comments you'd like to make?	Any waste diverted from landfill is a good thing.
What target should we set instead?	
Question 4: Other comments

Question 1: Food scraps and green waste	
Do you support our plan to introduce a food scraps kerbside collection service?	Yes
Are there any comments you'd like to make?	
What should be included in the kerbside collection service?	Food scraps and green waste
Please tell us your thoughts	It's hard to find a reasonably priced green waste service for a small household. I usually take a bag or two of green waste up to Awapuni but I would prefer to put it on the kerb each week / fortnight. Thank you.
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	Yes
Are there any comments you'd like to make?

Organisation you represent	
Hearing	
Do you want to speak to Council in support of your submission?	No
Question 1: Food scraps and green waste	
Do you support our plan to introduce a food scraps kerbside collection service?	Yes
Are there any comments you'd like to make?	I would definitely prefer this, as we have tried composting but it attracts rodents and we would definitely be happy to do this. Our food scraps also will go to waste disposal unit (food peeling etc) and this would assist in taking pressure off the wastewater system.
What should be included in the kerbside collection service?	Food scraps only
Please tell us your thoughts	We have a waste management bin 240 L that we do put green waste in or if we have a lot of green waste we take this to the green waste at refuse tip. We never use the council bags.
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	Yes
Are there any comments you'd like to make?	
Question 3: Waste minimisation target	
Do you support our plan to include these performance standards as our waste minimisation target?
