Your contact details	
First name	Krystal
Last name	Holleron
Organisation you represent	
Hearing	
Do you want to speak to Council in support of your submission?	No
Question 1: Food scraps and green waste	
Do you support our plan to introduce a food scraps kerbside collection service?	No
Are there any comments you'd like to make?	
What should be included in the kerbside collection service?	Food scraps and green waste
Please tell us your thoughts	Green waste please. Not too worried about food scraps.
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	
Are there any comments you'd like to make?	
Question 3: Waste minimisation target	
Do you support our plan to include these performance standards as our waste minimisation target?	I don't know / not sure
Are there any comments you'd like to make?	
What target should we set instead?	
Question 4: Other comments	

### Submission on the draft Waste Management & Minimisation Plan

Your contact details	
First name	Krystal

Organisation you represent	
Hearing	
Do you want to speak to Council in support of your submission?	No
Question 1: Food scraps and green waste	
Do you support our plan to introduce a food scraps kerbside collection service?	No
Are there any comments you'd like to make?	I would rather you collect the recycling weekly
What should be included in the kerbside collection service?	Food scraps and green waste
Please tell us your thoughts	Green waste would be good. Not bothered about food scraps.
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	Yes
Are there any comments you'd like to make?	
Question 3: Waste minimisation target	
Do you support our plan to include these performance standards as our waste minimisation target?	Yes
Are there any comments you'd like to make?	Suggest doing inorganic collection.
What target should we set instead?	
Question 4: Other comments	

### Submission on the draft Waste Management & Minimisation Plan

Your contact details	
First name	Joshua
Last name	Webster
Organisation you represent	
Hearing	
Do you want to speak to Council in support of your submission?	No
Question 1: Food scraps and green waste	
Do you support our plan to introduce a food scraps kerbside collection service?	No
Are there any comments you'd like to make?	Not a service our family would use. All food scraps are added to our compost bin. Lawns clippings and garden waste is also added to the compost or mulched and added to the garden. Every now and then I throw a handful of weeds in the waste bin, but that's it. More people should be encouraged to added a compost bin to the back yard. Food scraps need to be disposed of every day in summer or couple days during winter otherwise they start to go off.
What should be included in the kerbside collection service?	Food scraps and green waste
Please tell us your thoughts	If you do this, it might as well be both, but Needs to be user pays! A lot of people who do not require this service must be able to opt out.
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	I don't know / not sure
Are there any comments you'd like to make?	Plenty of private companies to choose from if you want a bin or various sizes... Stick to the bags as a user pay system. Keep it out of the rates.
Question 3: Waste minimisation target	
Do you support our plan to include these performance standards as our waste minimisation target?	I don't know / not sure
Are there any comments you'd like to make?	
What target should we set instead?	
Question 4: Other comments	

### Submission on the draft Waste Management & Minimisation Plan

Your contact details	
First name	Danielle
Last name	Connelly
Organisation you represent	
Hearing	
Do you want to speak to Council in support of your submission?	No
Question 1: Food scraps and green waste	
Do you support our plan to introduce a food scraps kerbside collection service?	Yes
Are there any comments you'd like to make?	
What should be included in the kerbside collection service?	Food scraps and green waste
Please tell us your thoughts	With 'infilling' of housing there is less room for garden waste ie. composting grass clippings etc. This service would be very beneficial to residents.
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	Yes
Are there any comments you'd like to make?	But not at a greater risk to ratepayers. There needs to be a balance. Already in our area we see evidence of people dumping on the roadside.
Question 3: Waste minimisation target	
Do you support our plan to include these performance standards as our waste minimisation target?	I don't know / not sure
Are there any comments you'd like to make?	I feel there needs to be more communication with ratepayers to help them understand what we are facing.
What target should we set instead?	
Question 4: Other comments	
	Greater communication! Have brochures regarding what is currently allowed in kerbside recycling bins been printed yet? This has been far too slow! I'd be surprised if even half of Palmy residents are recycling correctly under the new standards.

Your contact details	
First name	Janet SUSAN
Last name	Stirling
Organisation you represent	
Hearing	
Do you want to speak to Council in support of your submission?	No
Question 1: Food scraps and green waste	
Do you support our plan to introduce a food scraps kerbside collection service?	Yes
Are there any comments you'd like to make?	Other Councils, e.g. New Plymouth are already doing this effectively
What should be included in the kerbside collection service?	Food scraps and green waste
Please tell us your thoughts	Although I live on a section big enough to compost, increasingly people live on very small sections where there's not enough room to compost.
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	Yes
Are there any comments you'd like to make?	People like to be included in the decision making process but I do think that looking at councils which have already implemented this system would be very beneficial.
Question 3: Waste minimisation target	
Do you support our plan to include these performance standards as our waste minimisation target?	Yes
Are there any comments you'd like to make?	I do think the Council should provide small bins for general waste. This would stop the ridiculous number of trucks emptying private bins which must add to the pollution and congestion in the town. Other Councils do this.
What target should we set instead?	
Question 4: Other comments	
	Just try and follow what other successful councils are doing- New Plymouth is an excellent example of a city almost exactly the same size as Palmerston North.

Do you want to speak to Council in support of your submission?	No
Question 1: Food scraps and green waste	
Do you support our plan to introduce a food scraps kerbside collection service?	Yes
Are there any comments you'd like to make?	I work in Garbage in Melbourne for a contractor to Hobsons bay city council, over here all councils have a 4 bin system, Garbage 120, recycle 240 (f/n), glass 120 (monthly) and Fogo 240 (food organic and Garden organics also f/n) (and also Hard waste pick up system,) maybe that is worth a look as mixing food and garden waste seems to work over here. And as a palmy born lad it would be good to see PNCC doing something with green waste. Seen the waste industry envole in my 16yrs in the industry. Cant wait to move home in August though thats for sure.
What should be included in the kerbside collection service?	Food scraps and green waste
Please tell us your thoughts	I work in Garbage in Melbourne for a contractor to Hobsons bay city council, over here all councils have a 4 bin system, Garbage 120, recycle 240 (f/n), glass 120 (monthly) and Fogo 240 (food organic and Garden organics also f/n) (and also Hard waste pick up system,) maybe that is worth a look as mixing food and garden waste seems to work over here. And as a palmy born lad it would be good to see PNCC doing something with green waste. Seen the waste industry envole in my 16yrs in the industry. Cant wait to move home in August though thats for sure.
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	Yes
Are there any comments you'd like to make?	Im experienced in waste and have been for the past 16yrs, i currently work in Melbourne for a contractor to a city council, but am moving home to Palmerston North in july, 1 hurdle we had in 2022 before we left NZ was not able to get rid of greenwaste without paying an arm and leg to wm or enviowaste, it should be mandatory for councils to provide greenwaste bins and Hard waste pickups as they do here in Hobsons Bay Melbourne, which are also included in rates. Also im looking for a job in council waste services no longer as a driver though. It took me coming to Melbourne to see a difference in waste collections.

Question 3: Waste minimisation target	
Do you support our plan to include these performance standards as our waste minimisation target?	Yes
Are there any comments you'd like to make?	I work in Garbage in Melbourne for a contractor to Hobsons bay city council, over here all councils have a 4 bin system, Garbage 120, recycle 240 (f/n), glass 120 (monthly) and Fogo 240 (food organic and Garden organics also f/n) (and also Hard waste pick up system,) maybe that is worth a look as mixing food and garden waste seems to work over here. Do you want to speak to Council in support of your submission?	No
Question 1: Food scraps and green waste	
Do you support our plan to introduce a food scraps kerbside collection service?	Yes
Are there any comments you'd like to make?	Although I like the idea for our environment- i do not like the idea on the increase of the rates. I feel this should be a cost the city absorbs - not residents. Personally my Rubbish bin is 50% green waste/scraps and 50% rubbish.
What should be included in the kerbside collection service?	Food scraps and green waste
Please tell us your thoughts	If i have to pay, then there should be an 'Opt Out" option as I will just continue to put into my rubbish bin or alternately create my own compost bin at home
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	No
Are there any comments you'd like to make?	Don't fix what's not broken. Spend heaps of money to "Investigate", you all get paid too much per hour. The reason most people use Wheelie bins vs Council bags is because they're too expensive. I spend roughly \$25 per month on my bin. A back of 5 bags is \$11. This will last my house hold 1 week and therefore it would costs more to purchase council rubbish bags opposed to a wheelie bin - which i can also put green waste into. Were in an economy where everyone is trying to SAVE money not look for more ways to spend it
Question 3: Waste minimisation target	
Do you support our plan to include these performance standards as our waste minimisation target?	I don't know / not sure
Are there any comments you'd like to make?	
What target should we set instead?	
Question 4: Other comments

Question 1: Food scraps and green waste	
Do you support our plan to introduce a food scraps kerbside collection service?	Yes
Are there any comments you'd like to make?	I think this is brilliant 😊 I tried composting but don't have time to take on anything else and do it properly, plus I don't have much use for it either
What should be included in the kerbside collection service?	Food scraps and green waste
Please tell us your thoughts	Green waste is really problematic and expensive to remove, these days it's hard to find the extra money for it
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	Yes
Are there any comments you'd like to make?	
Question 3: Waste minimisation target	
Do you support our plan to include these performance standards as our waste minimisation target?	Yes
Are there any comments you'd like to make?	
What target should we set instead?	
Question 4: Other comments	
	I think initiatives such as green waste collection which can be composted and reused is incredibly important. I am most disappointed that restrictions on packaging haven't been tightened, getting rid of plastic bags and straws is fine, but at the supermarket there is far more plastic packaging than bags that were used to pack them in. A lot of this doesn't make sense to me. We can do what is possible with recycling initiatives but at the end of the day it's manufacturers and suppliers that need to get on top of it

	Many people simply couldn't care less so you need to provide the service, make it simple to use, and then enforce it.

**From:** Bob Stockley  
**Sent:** Sunday, 14 April 2024 7:21 pm  
**To:** Governance  
**Subject:** Kerb side collections

Sent from my iPad in my submission to the question of what should be included in the kerb side waste collections I said food scraps and green waste, but I meant these items in addition to the existing waste waste collections of rubbish bags, glass, plastics cardboard and paper.

Sorry for this omission. Please amend my submission accordingly.

Thanks

Bob Stockley

Do you support our plan to introduce a food scraps kerbside collection service?	
	No
Are there any comments you'd like to make?	I'd like an opt on in / op out option as not required by everyone . Fore example we are lifestyle block so feed scraps to chickens and don't have lawn clippings
What should be included in the kerbside collection service?	Neither
Please tell us your thoughts	The smell and pesky rodents would increase
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	
	No
Are there any comments you'd like to make?	
Question 3: Waste minimisation target	
Do you support our plan to include these performance standards as our waste minimisation target?	
	No
Are there any comments you'd like to make?	
What target should we set instead?	
Question 4: Other comments

Question 1: Food scraps and green waste	
Do you support our plan to introduce a food scraps kerbside collection service?	Yes
Are there any comments you'd like to make?	I compost my food scraps and try to compost my green waste but I also pay PNCC to take some of the green waste. I pay weekly but some weeks don't need to put the green waste bin out. I think it's important though for the city council to offer this service to keep these things out of the tip.
What should be included in the kerbside collection service?	Food scraps and green waste
Please tell us your thoughts	I compost my food scraps and try to compost my green waste but I also pay PNCC to take some of the green waste. I pay weekly but some weeks don't need to put the green waste bin out. I think it's important though for the city council to offer this service to keep these things out of the tip.
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	Yes
Are there any comments you'd like to make?	I am concerned that other waste collectors are not regulated and will pick up anything. I have a neighbour who contracts with someone to pick up garden waste and routinely puts other rubbish in the bin and invites others in the neighbourhood to throw rubbish into that bin. So is it really going to be creating compost??
Question 3: Waste minimisation target	
Do you support our plan to include these performance standards as our waste minimisation target?	Yes
Are there any comments you'd like to make?	I'd like to see these standards or higher used. If the current government changes them to lower targets as a way to save money for ratepayers, I would like the standards to stay at the current level
What target should we set instead?	
Question 4: Other comments	
	I am in favor of your action plans. I will be reading them more carefully and making more submissions.

### Submission on the draft Waste Management & Minimisation Plan

Do you want to speak to Council in support of your submission?	Yes
Question 1: Food scraps and green waste	
Do you support our plan to introduce a food scraps kerbside collection service?	Yes
Are there any comments you'd like to make?	
What should be included in the kerbside collection service?	Food scraps and green waste
Please tell us your thoughts	Majority of the time my rubbish bin is full of grass clippings so this would be great. I have a small family and wouldn't need to pay for such a big rubbish bin each week for mainly green waste.
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	Yes
Are there any comments you'd like to make?	Please don't make silly decisions like the featherston and rangitikei intersection!
Question 3: Waste minimisation target	
Do you support our plan to include these performance standards as our waste minimisation target?	Yes
Are there any comments you'd like to make?	
What target should we set instead?	
Question 4: Other comments

Hearing	
Do you want to speak to Council in support of your submission?	No
Question 1: Food scraps and green waste	
Do you support our plan to introduce a food scraps kerbside collection service?	I don't know / not sure
Are there any comments you'd like to make?	I wouldn't use it as I compost at home & don't create much non-compostable food waste. Would depend on what's accepted not being a health risk between collections.
What should be included in the kerbside collection service?	Food scraps and green waste
Please tell us your thoughts	Need to define what's acceptable for each category (meat?; thick branches even if suitable length?)
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	Yes
Are there any comments you'd like to make?	Implications of costs to ratepayers of various options important.
Question 3: Waste minimisation target	
Do you support our plan to include these performance standards as our waste minimisation target?	Yes
Are there any comments you'd like to make?	Waste minimisation strategies should include reducing waste, not just where to put different types (eg. would be good to see policy on single-use coffee cups, including encouraging businesses & consumers to use other options).
What target should we set instead?	
Question 4: Other comments	
	Enjoyed today's visit to Awapuni Resource Recovery Centre-more public events should be included as part of education campaigns.

Last name	Corbett
Organisation you represent	
Hearing	
Do you want to speak to Council in support of your submission?	No
Question 1: Food scraps and green waste	
Do you support our plan to introduce a food scraps kerbside collection service?	No
Are there any comments you'd like to make?	We have an insinkerator which takes care of most of our food scraps. Any food that can't go in that it put in our compost bins at home. We have no need for a kerbside collection of green waste. You should provide a rates rebate for all homes with insinkerators, compost bins and worn farms as an incentive.
What should be included in the kerbside collection service?	Neither
Please tell us your thoughts	We pay for our green waste to be collected already. And are happy with our current arrangements.
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	No
Are there any comments you'd like to make?	Waste of our rates money. If it ain't broke don't fix it! Continue with current services. As is.
Question 3: Waste minimisation target	
Do you support our plan to include these performance standards as our waste minimisation target?	I don't know / not sure
Are there any comments you'd like to make?	
What target should we set instead?	
Question 4: Other comments

Do you support our plan to introduce a food scraps kerbside collection service?	Yes
Are there any comments you'd like to make?	
What should be included in the kerbside collection service?	Food scraps and green waste
Please tell us your thoughts	I come from Christchurch where green waste has been collected and recycled to make compost for any years.
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	Yes
Are there any comments you'd like to make?	Every Thursday 5 different waste trucks drive down our street - what a waste THAT is
Question 3: Waste minimisation target	
Do you support our plan to include these performance standards as our waste minimisation target?	Yes
Are there any comments you'd like to make?	please publish the % of each type of waste you recycle eg tins, bottles, No1 plastic etc.
What target should we set instead?	
Question 4: Other comments	

### Submission on the draft Waste Management & Minimisation Plan

Your contact details	
First name	David
Last name	Lane
Organisation you represent	
Hearing	
Do you want to speak to Council in support of your submission?	No
Question 1: Food scraps and green waste	
Do you support our plan to introduce a food scraps kerbside collection service?	Yes
Are there any comments you'd like to make?	Only if combined with green waste. We are not interested in supporting food scraps only.
What should be included in the kerbside collection service?	Food scraps and green waste
Please tell us your thoughts	<p>We have tried food scrap recycling and composting in the past, it really does not work with a small benchtop bin even if using compostable bags. We would be more than happy with a fortnightly collection of green waste and food scraps in a large wheelie bin.</p> <p>The main problem with small bins is ants and smells as food rots down, this potential is reduced with a larger bin that is rodent resistant. We currently have a private wast bin, we would reduce the size and frequency of this if a green waste bin was available.</p>
Question 2: Review of services	
Do you support our plan to investigate different ways of delivering kerbside collection services?	Yes
Are there any comments you'd like to make?	<p>We have used a private wheelie bin for many years, at our own cost. We prefer the convenience of the kerbside service and not having to have outside rubbish bins prone to blowing over and vermin. We still get charged for waste services, hence we see significant scope for cost efficiency. We should not be paying twice, either for rubbish services or recycling services. Bin bag costs should reflect the entire cost of providing the services, not be subsidised by ratepayers who do not use the service. This anomaly needs to be addressed, I do not really mind if it is public or private collection, I just want to see the most efficient service provided.</p>
Question 3: Waste minimisation target	
Do you support our plan to include these performance standards as our waste minimisation target?	Yes
Are there any comments you'd like to make?	<p>There is still plenty of scope in the recycling area, construction waste in particular. Transfer stations only encourage waste to be dumped at high cost to the individual. Concrete, gib board offcuts and timber are particular problems that could be easily reused. We need to do better.</p>

What target should we set instead?	
Question 4: Other comments	
	<p>I have read the proposed actions, I think Council is putting a lot of faith in a strategy based on "hope" that community organisations will seek funding grants and take responsibility for establishing recycling programmes. This doesn't work without strong levels of commitment and should ideally involve corporations that have a stake in industry. The concrete recycling plant in Feilding is an example of a successful delivery model, shame more people don't (can't) use it. The construction industry is shocking example of waste, merely filling bins and on-charging customers. Your strategy should not just target residents using wheelie bins, if you want different decisions and to meet waste targets you need to target both households and industry. This needs to be done by ensuring facilities are available for recycling a larger range of waste products.</p>
